MANAGEMENT CONSULTING

With decades of combined experience in Project Management, our team of consulting experts, is positioned to provide high quality support and guide your project to mission readiness.

Thelan consultants will work with you to realize your vision— no matter what it takes

STRATEGIC PLANNING

Thelan's Strategy Practice has a history of providing services to high-level clients in the federal and commercial space. Service areas include: Change Management, Organizational Development, Process Improvement, IT/ Cybersecurity, Advisory services, and more.

At all levels, expert Thelan team members develop standardized tools and processes to support diverse client needs and goals. This includes organization-wide initiatives such as establishing a Project/Program Management Office or department-specific goals like building meaningful, informative reports that align to strategic goals.

PROJECT PLANNING & CONTROLS

ORGANIZATIONAL MANAGEMENT

Mismanagement of resources can sabotage even the best ideas. From physical resources to time and funds, Thelan's Organizational Management team will support your strategic goals with optimal resource allocation and management.
